Strategic Plan

2024 - 2026

Foreword

A Strategic Plan for 2024-2026 has been created by the Chirnside Views Management Team.

Simply put, strategic planning is the process of deciding where we want our Organisation to be in the future.

Our intention is to provide an understanding and a sense of direction as to what we are doing, why we are doing it and how it will benefit our stake holders (our Residents, their Families and our Staff).

This strategic planning document outlines where we will focus our attention for the next two years. This is not a detailed operational plan that sets out how we will do our work every day. Instead, it should be considered a guide to the priority areas where we will focus our attention. It will be the guiding force behind what we do every day.

We believe that this plan ensures that as an organisation we are all clear on:

- Where we are going and why we do what we do, our purpose.
- What we need to achieve, the strategic focus areas.
- Why we do it, our values.

We fully encourage you to read this strategic plan and welcome any input that you might like to make.

Strategic Plan

2024 - 2026

Our Foundations

We believe every focus area is underpinned by our unwavering commitment to safety and quality in everything we do and our desire to build a community that is inclusive and representative of society.

We believe the Aged Care Quality Standards are a minimum set of expectations for aged care services and we seek to exceed these in everything we do.

Our commitment to embracing the diversity of our community and being inclusive means that our planning takes into account the broad mosaic of everchanging community. We aim to provide an environment that is welcoming, safe and free from discrimination.

We are committed to providing high quality safe reliable care for when individuals need it in their life. We are focussed on providing care and services that exceed expectations. The eight aged care quality standards detail the way we plan for and deliver care and services. We do this not to achieve accreditation but to ensure every person is treated with dignity and respect and is supported to make choices about the way they live.

Safety and Quality

Strategic statement

We will provide safe, high quality care to all individuals. We take seriously the trust that has been placed in us to care for you or your loved ones. The safety of everyone in our community is paramount and we are committed to ensuring that safe, high quality care is the pillar of everything we do.

Diversity, Inclusion and Consumer Centred Approach

Strategic statement

We believe that the identity, culture and diversity of our community should be embraced. We are committed to creating a welcoming and inclusive community.

We will promote and engage in a service culture that supports Resident health, safety and wellbeing and that is inclusive of identity, diversity and cultural safety by:

- Enhancing and maintaining Residents' partnership in designing and delivering Care and services as they like.
- Ensuring delivery of consumer-centred Care, ensuring meeting their individual care needs.
- Welcoming diversity and providing Care to the consumer that is inclusive of their identity, diversity and cultural safety.

Strategic Plan

2024 - 2026

Cultural Safety

Strategic statement

We will model a culture and environment which is entirely consistent with the principles of Cultural Safety, by:

- Delivering culturally safe Care and services that are culturally safe, support individual's culture, customs, beliefs, needs and practices and ensures consumer's identity is respected.
- Delivering Care and services that supports resident's rights of choice, independence and decision-making.
- Delivering Care and services that respect consumer's privacy, dignity and culture.

"Care and Services are planned and delivered in a way that is spiritually, socially, emotionally and physically safe and respectful for Residents. Culturally safe care and services also ensures that a person's identity is respected so that who they are and what they need in not questioned or denied."
